CS 124 – Intro to Software Development

Macbeth – Lesson 12.3

Agenda

- Music Friday
- Opening Prayer
- Instrumentation
- Sudoku Project
- Looking Ahead

Music Friday

Oh, Come, All Ye Faithful (Hymn 202)

Oh, come, all ye faithful,
Joyful and triumphant!
Oh, come ye, oh come ye to Bethlehem.
Come and behold him,
Born the King of angels;

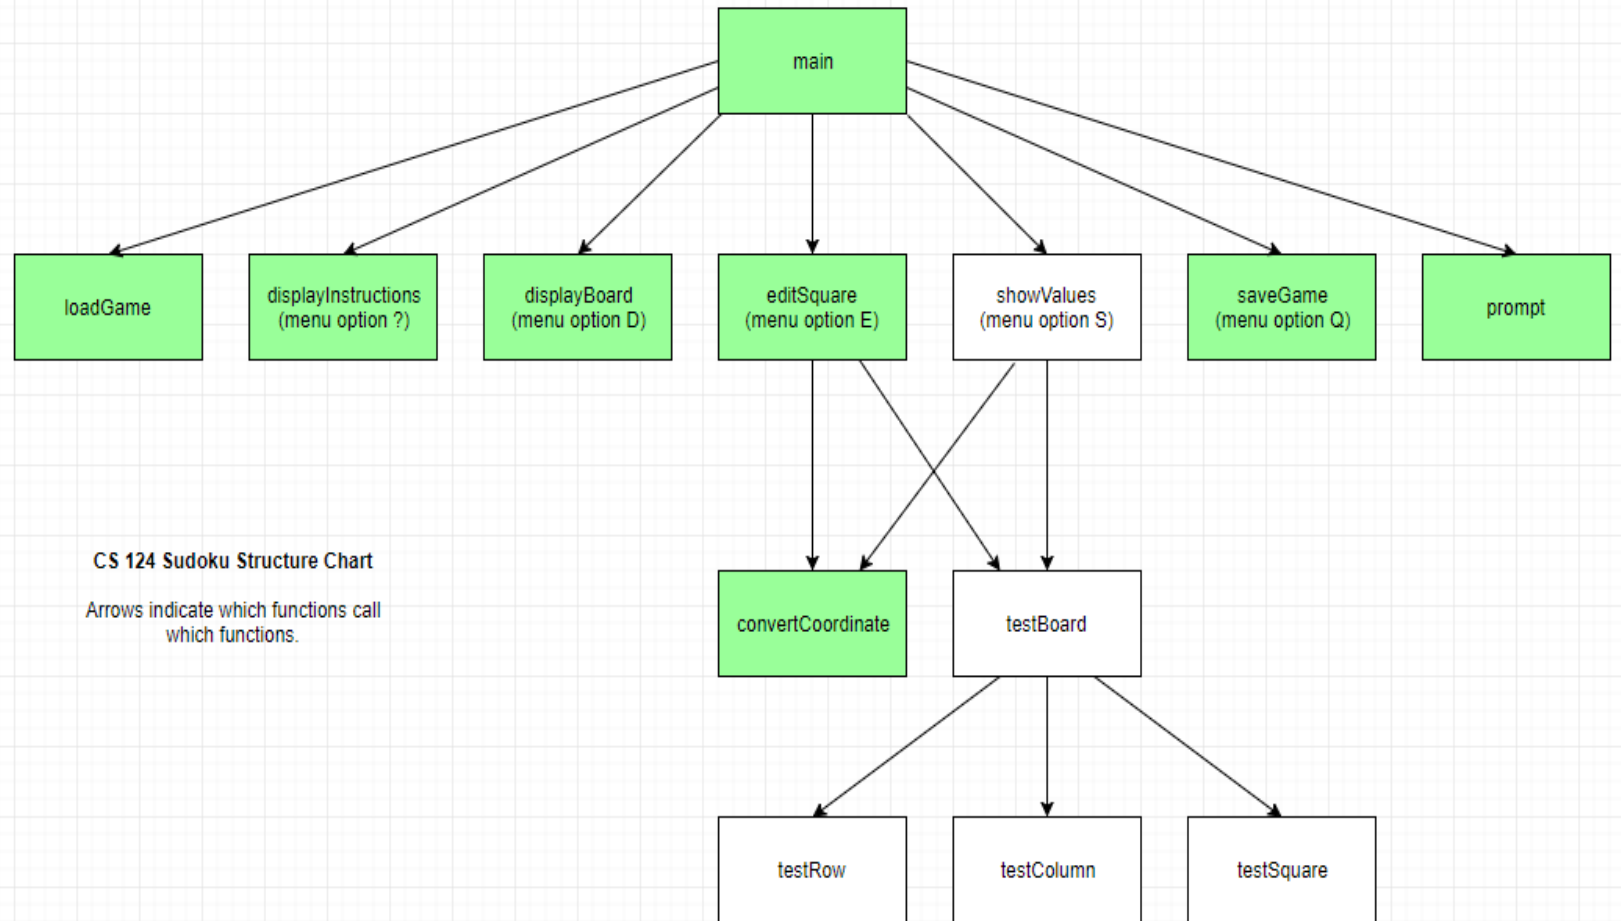

Oh, come, let us adore him;
Oh, come, let us adore him;
Oh, come, let us adore him,
Christ, the Lord.

Sudoku Schedule

- Saturday, Dec 2 – First delivery of Sudoku is due (project 12)
- Saturday, Dec 9 – Final delivery of Sudoku is due (project 13) – no late submissions accepted.
- Sudoku Extra Credit – Make a copy of your final Sudoku project and implement additional functionality. This is a separate submission which is due no later than Dec 9th. See I-Learn Week 13 for more details.
- Sudoku Solver – Update your code to automatically solve a Sudoku puzzle. If you demonstrate it to me in my office no later than Dec 11th, then you do not need to take the final exam. There is no testbed for the solver. See I-Learn Week 13 for more details.

First Delivery of Sudoku

- The editSquare will give an error only if the Sudoku position is already filled in.
- You will not need to implement the Sudoku rules for this delivery.

Looking Forward

- Turn in 1st Delivery of Sudoku code Saturday evening.
- Review Unit 4 Practice Test for Monday.
