Agenda

- Opening Prayer
- Spiritual Thought
- Command Line
- Sudoku Project
- Looking Ahead

# Spiritual Thought

President David O. McKay

"Man's greatest happiness comes from losing himself for the good of others."

BYU
IDAHO

Sudoku Schedule

- Saturday, Dec 2 – First delivery of Sudoku is due (project 12)

- Saturday, Dec 9 – Final delivery of Sudoku is due (project 13) – no late submissions accepted.

- Sudoku Extra Credit – Make a copy of your final Sudoku project and implement additional functionality. This is a separate submission which is due no later than Dec 9th. See I-Learn Week 13 for more details.

- Sudoku Solver – Update your code to automatically solve a Sudoku puzzle. If you demonstrate it to me in my office no later than Dec 11th, then you do not need to take the final exam. There is no testbed for the solver. See I-Learn Week 13 for more details.

First Delivery of Sudoku

- The editSquare will give an error <u>only</u> if the Sudoku position is already filled in.

- You will not need to implement the Sudoku rules for this delivery.

CS 124 Sudoku Structure Chart

Arrows indicate which functions call which functions.

Looking Forward

- Read next topic and attempt assignment.
- Continue working on Sudoku for the Saturday delivery.
